

Hi, I'm

Morgan Carter

I'm a freelance digital product designer. I turn complex ideas into intuitive, beautiful products.

EXPERIENCE

2015 - present

Freelance - Product Designer

- Worked remotely and locally as a digital product designer for various clients around the globe
- Carried early ideas through conception, design and prototyping
- Developed and shipped production-ready code (HTML/CSS/JS)

2015 - 2016

Bloc - Student Mentor

- Guided and assisted students undergoing the Design Track of the Bloc course

2014 - 2015

Deputy - Product Designer

- Lead the overhaul of the desktop web application, designing and developing new features, and reviewing the user experience at both the macro and micro level
- Brought branding into alignment across devices and applications

2013 - 2014

Stackla - UI/UX Designer

- Lead design and front-end development of the Stackla product and client integrations
- Lead the development of responsive widgets used on major client projects such as Sydney New Years Eve and Manchester United Social

EDUCATION

2012

B. Design Computing at University of Sydney
Minor in Information Technology

CONFERENCES

2016

Dribbble Meetup

Spoke on group development and making design valued at startups.

2012

OzChi

State of Mind: intelligently loading relevant applications, preferences, documents, and media automatically when entering a contextually defined space.
